- **6.30 pm – 7.00 pm Closing comments**

# IFP Training

IFP Training is a subsidiary of IFP Energies nouvelles and since 1975 it has been providing skill development & training for all the professionals in the oil, gas, petrochemical, chemical and automotive industries, from top managers to site operators. With 80 full-time instructors and a network of 500 consultants, IFP Training offers training courses for professionals, from a few-day short courses to several-month integrated courses. IFP Training delivers over 1200 courses a year for about 14000 participants from some 80 countries.

IFP School trains some 500 graduate students a year in all fields of the Oil and Gas industry including energy managements.

# IFP Energies nouvelles

IFP Energies nouvelles is a public-sector research, innovation and training center. Its mission is to develop efficient, economical, clean and sustainable technologies in the fields of energy, transport and the environment.

# Petrostrategies

PETROSTRATEGIES S.A., founded in 1985, is a consulting and publishing company based in Paris, France. Our weekly PETROSTRATEGIES newsletter has been published in English and French since 1986. It provides its readers with in-depth analysis on oil and gas matters. The group also publishes EUROP'ENERGIES, which is a European information and analysis service that caters for electricity and natural gas buyers. PETROSTRATEGIES is the co-organizer (together with IFP Energies nouvelles and IFP Training) of the Paris Oil and Gas Summit conferences. We also provide consulting services to governments and companies. The company is headed by Dr. Pierre Terzian, author of several books on energy matters.
