Media sponsors:

# The International Oil Summit

is a conference organized each year in Paris by IFP Energies nouvelles, the energy newspaper Pétrostratégies, and IFP Training. The **International Oil Summit** was first held in October 1999. Since its inception, it has become one of the most important yearly events in this field, facilitating the exchange of ideas and enabling the participants to share their assessments of current international situations and **the future of the world oil market.**

## > Themes of the Summit

- **Oil prices:** which future?
- **Is it possible to reduce volatility?**
- **What is the outlook for oil demand:**  
are we close to a peak?
- **The new challenges:** climate, geopolitics,  
peak oil, non conventional hydrocarbons...
- **NOCs-IOCs:** is there any room left for competition?
- **The role and situation of Service and Training Companies:** how to face the new environment?

# IFP Training

IFP Training is a subsidiary of the French Petroleum Institute (IFP Energies nouvelles) and since 1975 it has been providing skill development & training for all the professionals in the oil, gas, petrochemical, chemical and automotive industries, from top managers to site operators. With 85 full-time instructors and a network of 600 consultants, IFP Training offers training courses for professionals, from a few-day short courses to several-month integrated courses. IFP Training delivers over 1,200 courses a year for about 15,000 participants from some 80 countries.

# IFP Energies nouvelles

IFP Energies nouvelles is a world-class public-sector research and training center, aimed at developing the technologies and materials of the future in fields of energy transport and the environment. IFP School trains some 500 graduate students a year in all fields of the Oil and Gas industry including energy management.

# Petrostrategies

PETROSTRATEGIES S.A., founded in 1985, is a consulting and publishing company based in Paris, France. Our weekly PETROSTRATEGIES newsletter has been published in English and French since 1986. It provides its readers with in-depth analysis on oil and gas matters. The group also publishes EUROP'ENERGIES, which is a European information and analysis service that caters for electricity and natural gas buyers. PETROSTRATEGIES is the co-organizer (together with IFP Energies nouvelles and IFP Training) of the Paris Oil and Gas Summit conferences. We also provide consulting services to governments and companies. The company is headed by Dr. Pierre Terzian, author of several books on energy matters.
