SENEGAL 2019

11-13 JUNE 2019

DAKAR, SENEGAL | KING FAHD PALACE HOTEL

**SENEGAL'S LONGEST RUNNING
ENERGY, OIL & GAS EVENT**

WWW.AMETRADE.ORG/SIEPA

The organising team of SIEPA welcomes you to the **17th edition of SIEPA Senegal, taking place on 11-13 June 2019 in Dakar**. The organisers of this edition are the Association for the Development of Energy in Africa (ADEA), the Association of Senegal for the Development of Energy in Africa (ASDEA) and AME Trade Ltd.

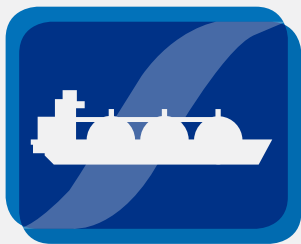

Inaugurated in 2002, as the African Energy and Petroleum Summit, SIEPA Senegal gathers the region's petroleum & power generation professionals with Senegal's government stakeholders to discuss the future of Senegal's energy industry. Additionally, SIEPA hosts the Energy Professionals Exhibition that allow participants to meet and exchange in a business-friendly climate.

SIEPA Senegal 2019 is the only event focused on Senegal's entire energy value chain, involving not only the participation of large operators in the country, but also the National companies, Government officials, local entrepreneurs, students and civil society, ensuring a multi layered and diverse participation.

SIEPA 2019 is an all encompassing oil and energy event including:

- A two-day conference on the oil, gas and energy industries, with high level panels and workshops
- A three-day trade event that will allow you to promote your products and services to both private and public sector of Senegal and neighboring countries
- Lunches, cocktail dinners and gala dinners, creating an environment conducive to networking and subsequent business development

SENEGAL'S ENERGY AND PETROLEUM POTENTIAL

The Grand Tortue deposit in Senegal will produce about 2.5 million tons of LNG from 2022 and about 10 million tons a few years later.

The production of Sangomar crude will be in the range of 120 to 159,999 barrels of crude per day from 2023.

Demand for petroleum products is growing rapidly in Africa and requires refining adaptations and developments.

The production of electricity from natural gas and renewables is progressing rapidly.

MAJOR ENERGY DEVELOPMENTS IN SENEGAL BUT ALSO IN AFRICA WILL BE DISCUSSED AT SIEPA SENEAL 2019

- Recent oil and gas discoveries in Senegal and Mauritania but also in other sub-Saharan African countries (Ghana, Uganda, Kenya, Mozambique, Tanzania) resulting in production
- The joint efforts of governments, national societies and international corporations coming to fruition
- Innovative models of CSR with the aim that people can benefit fully from the resources
- The supply of petroleum products involving the development of refining capacity as well as creating an efficient transport and distribution network, allowing access to fuels
- The top priority of all African states to accelerate access to energy and electricity in particular, an essential factor for development and fight against poverty

NEPAD and major international organizations are actively developing initiatives aimed at increasing the electrification rate in sub-Saharan Africa from 40% to over 80% by setting up large production units, mainly powered by natural gas through the creation of decentralized systems (solar, wind ...) and by the installation of networks and interconnections.

SPONSOR SIEPA SENEAL 2019

- Participate in Senegal's longest running event focusing on oil, gas and energy
- Position your company as a major player in the sector
- Optimize your visibility by speaking or giving a presentation at the conference

17TH AFRICAN ENERGY AND PETROLEUM SUMMIT IN SENEGAL

11-13 JUNE 2019

DAKAR, SENEGAL | KING FAHD PALACE HOTEL

national de l'Énergie et du Pétrole
pour le développement en Afrique

VENUE

THE HOTEL KING FAHD PALACE IS ONE OF THE FINEST HOTELS IN WEST AFRICA, OVERLOOKING THE ATLANTIC OCEAN.

SIEPA IS ORGANIZED BY LOCAL EXPERTS WITH INTERNATIONAL EXPERIENCE

The Senegalese Association for the Development of Energy in Africa (ASDEA) was created on March 2007. The ASDEA wants to be the centre of reflection, critical analysis and proposals for solutions to the development issues of the energy.

The main objectives of the Association for the Development of Energy in Africa (ADEA), based in Dakar, are to reflect on the energy issues in Africa and to determine how developing the production and energy consumption at a cost compatible with the standard of living of the population.

AMETrade LTD specializes in the organization of events on the African continent, particularly in the mining, oil, energy and finance sectors. AMETrade Senegal, based in Dakar, is the regional office of West Africa and organizes major events including Senegalese mining event [SIM] and the National real estate show [Senhabitat].
